

HOUSE OF TECHNOLOGY  
...er det af mercantec\*

## Det bliver "nemmere" endnu

- Subnet masken er på 32 bit
  - for eksempel 255.255.255.0
    - 11111111.11111111.11111111.00000000
    - De første 24 bit er 1'taller

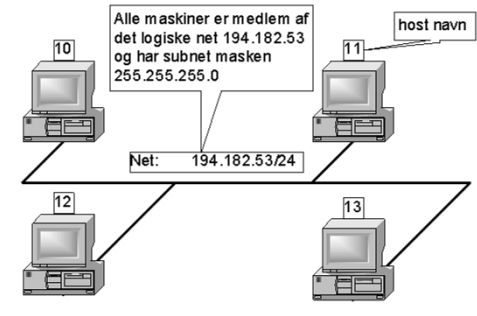

Net: 194.182.53.0  
Maske: 255.255.255.0 = 194.182.53/24

HOUSE OF TECHNOLOGY  
...er det af mercantec\*

## Den nye metode

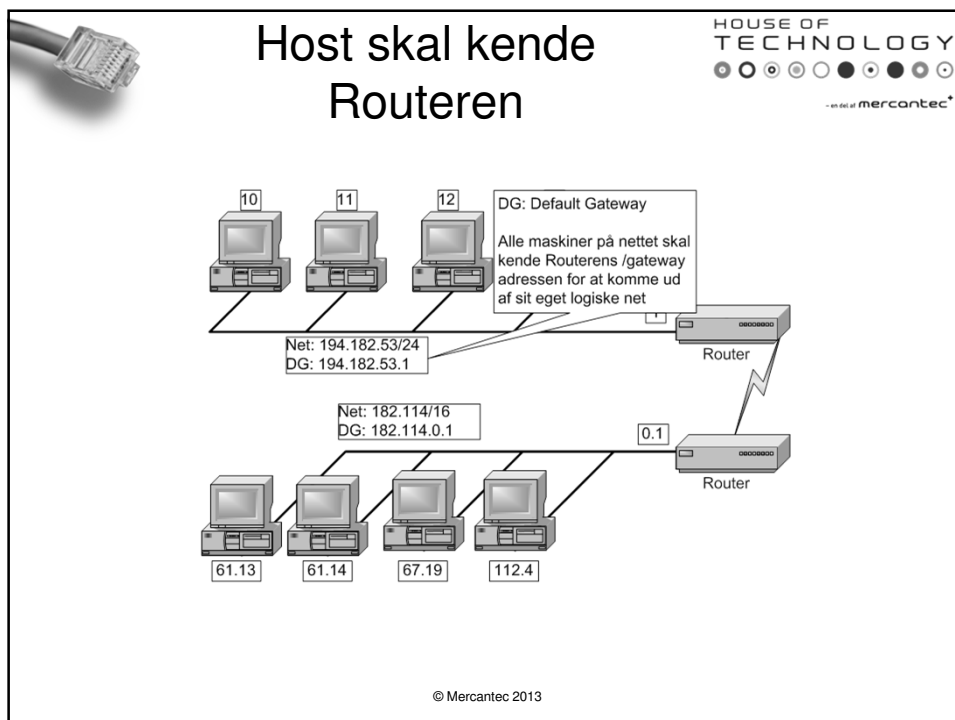

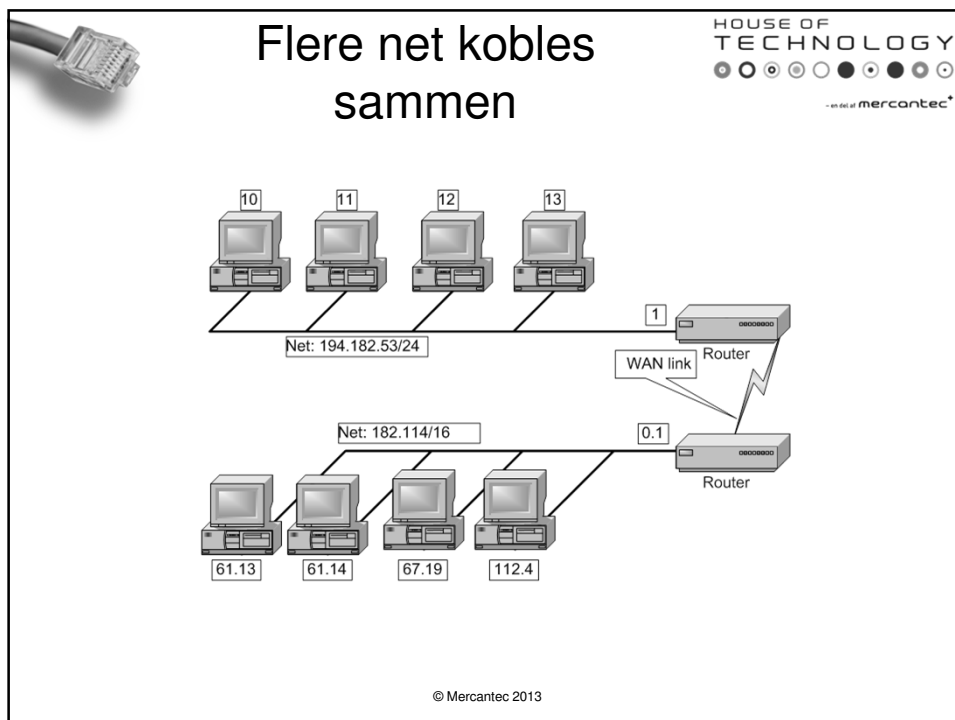

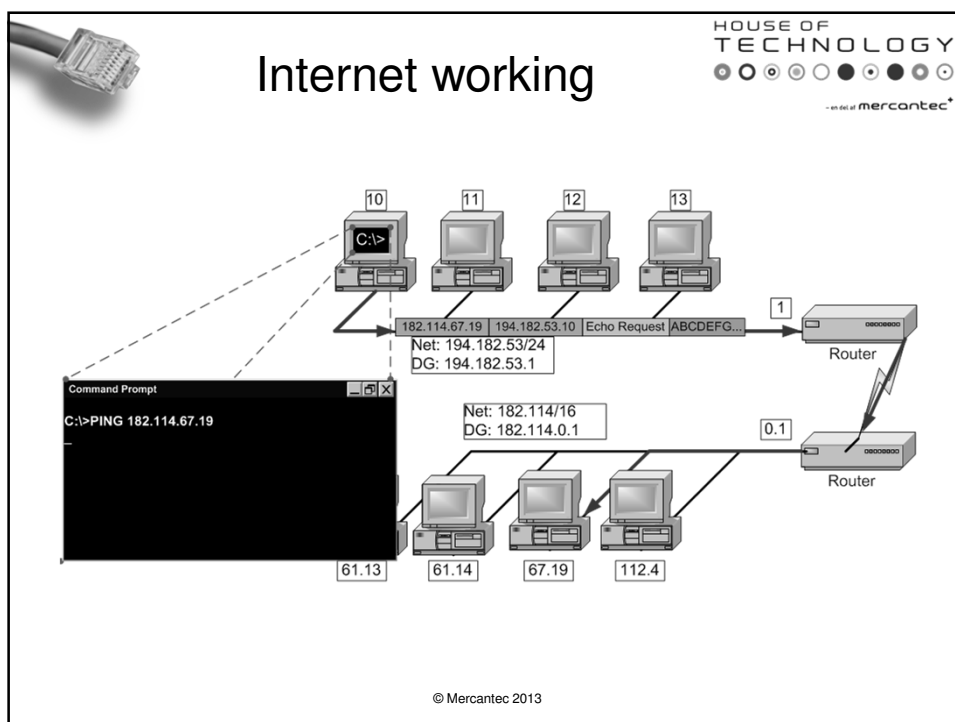

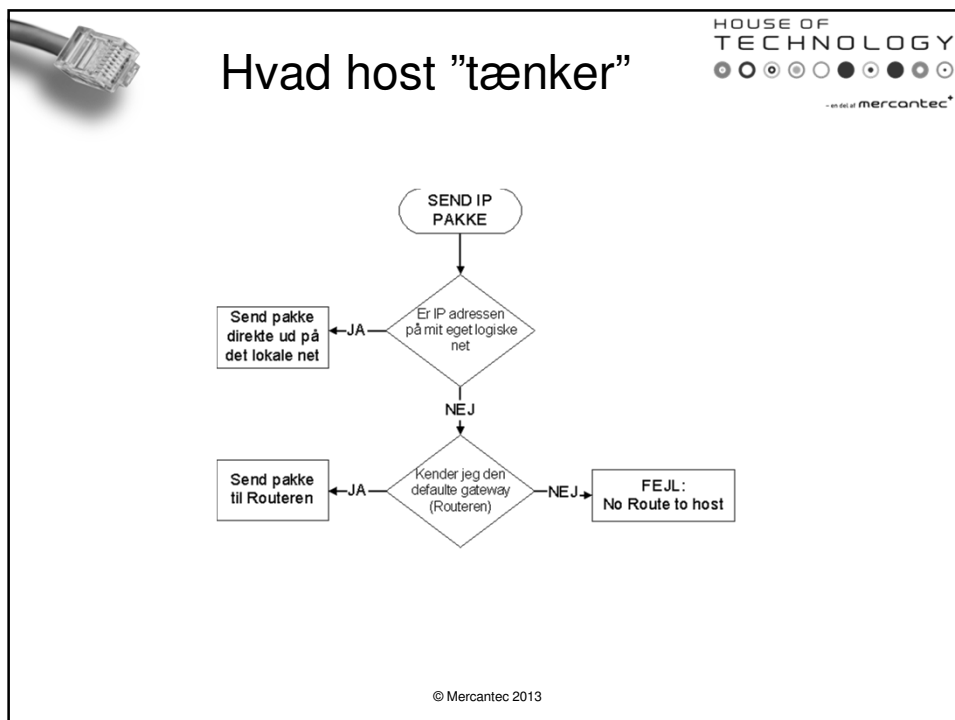

Alle maskiner er medlem af det logiske net 194.182.53 og har subnet masken 255.255.255.0

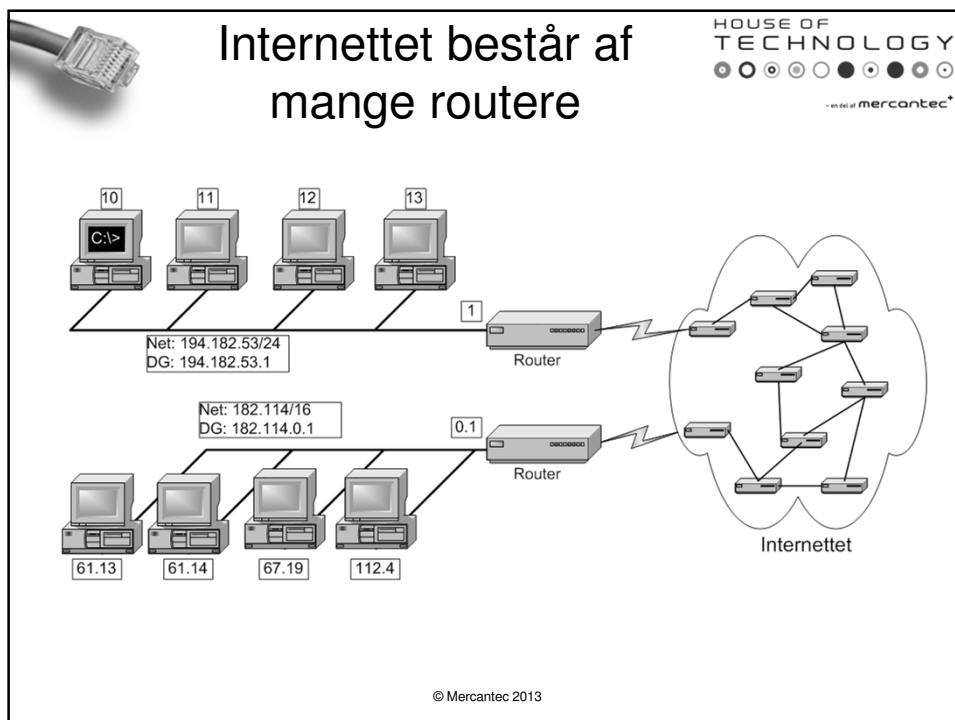

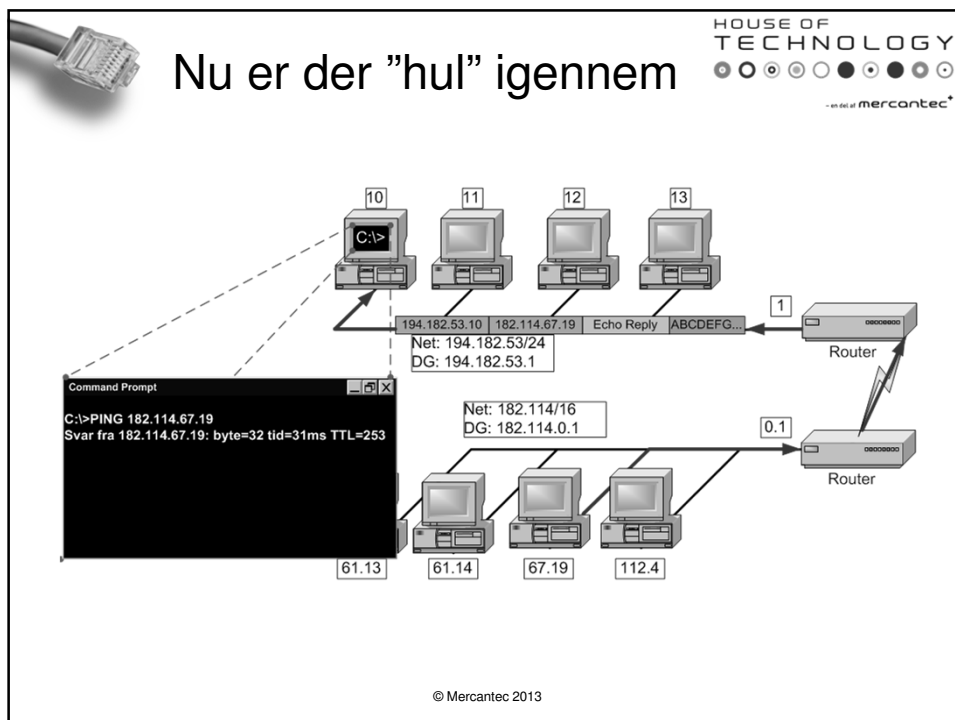

Net: 194.182.53/24

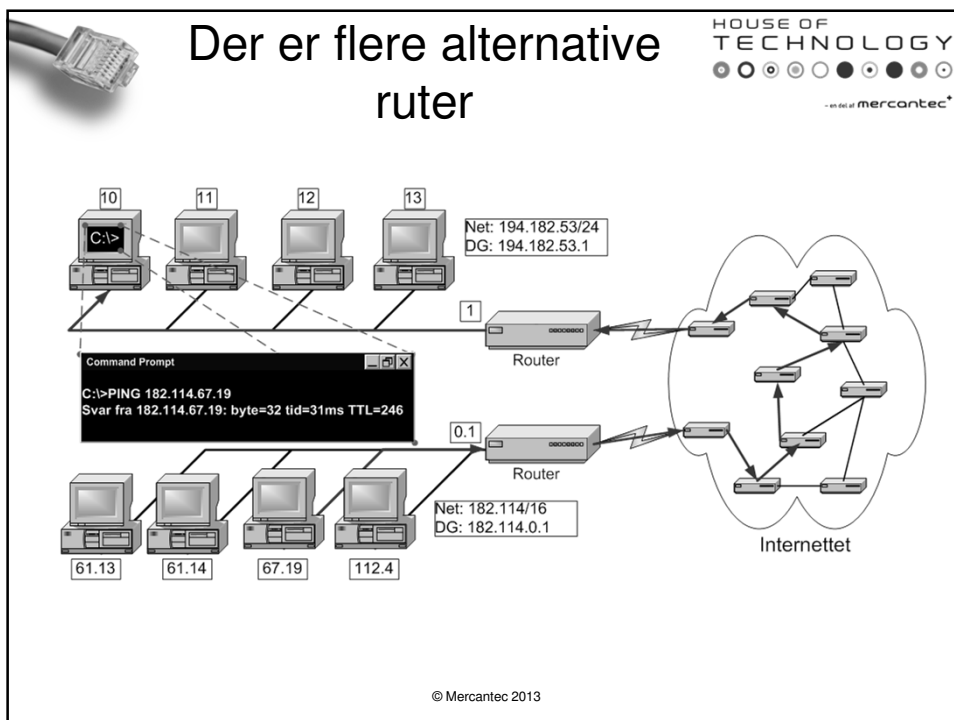

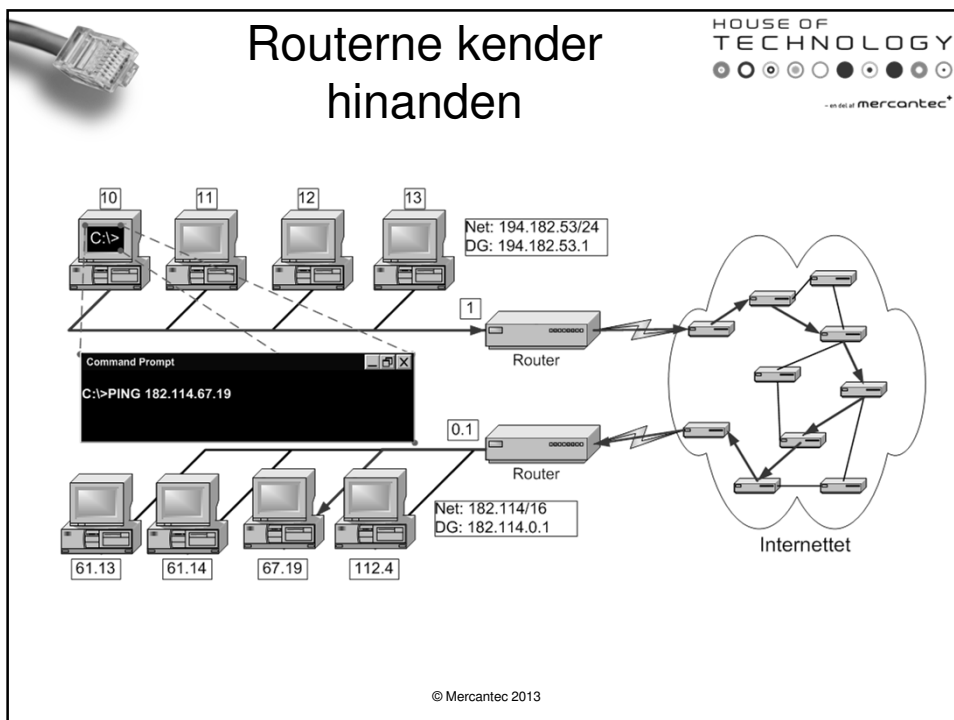

host navn

© Mercantec 2013

## Opsummering

HOUSE OF  
TECHNOLOGY  
...et del af mercantec\*

- En host kan sende direkte til andre host på sit eget logiske net.
- For at sende til host på andre logiske net skal hosten kende en rute ud af nettet
- 172.16/16 er et klasse B net
  - Net navn: 172.16.0.0
  - Subnet mask: 255.255.0.0
