Dedicated PBX

Private Branch eXchange

HOUSE OF TECHNOLOGY

...an dds of mercontec*

- A dedicated PBX is a PBX used by a single organization

Shared PBX

Private Branch eXchange

HOUSE OF TECHNOLOGY

...an aac of mercontec*

- A shared PBX is a PBX shared by more organizations typically in the same location
- Logically operates as two or more PBX's
- Often used in office rental buildings
- Share the same amount of outside lines

Hosted or Centrex PBX

Private Branch eXchange

HOUSE OF TECHNOLOGY

...an aac of mercontec*

- A hosted PBX is a PBX shared by more organizations typically at different locations
- A hosted PBX is typically located at the telco
 - Telco = Telephone company
- Telco provides access to the PSTN

Hosted PBX

Private Branch eXchange

HOUSE OF TECHNOLOGY

...as of mercontec*

- Some hosted Scandinavian solutions

Provider	Country	Product	Mobile	Wired
Telia	Sweden	Centrex	Yes	Yes
Telia	Denmark	Mobiz link	Yes	Yes
Telenor	Norway	Mobilt bedriftsnett	Yes	No
TDC	Denmark	Scale	Yes	Yes

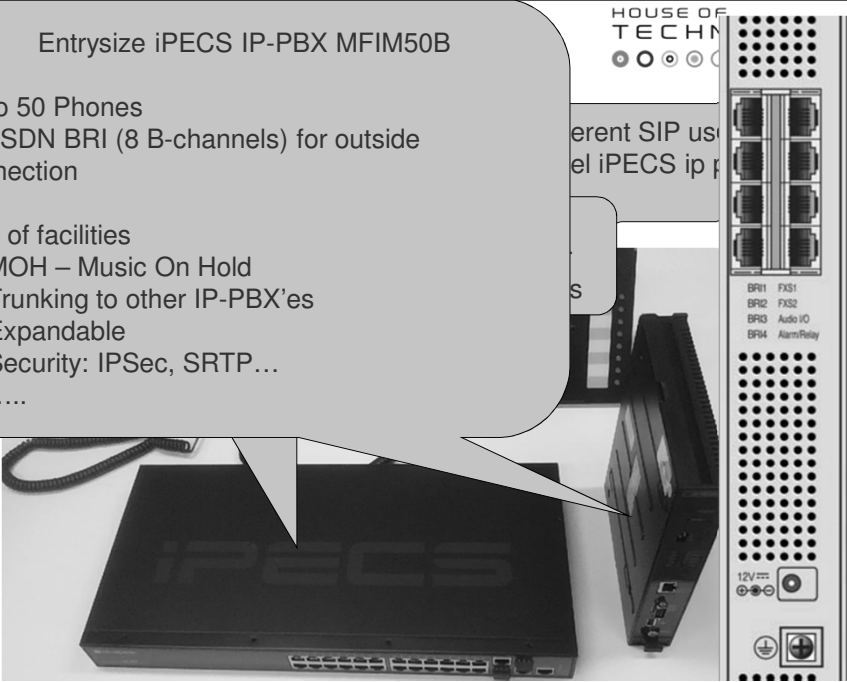

IP-PBX

HOUSE OF TECHNOLOGY

...as of mercontec*

- A IP-PBX is an IP based PBX
 - Can be partially traditional PBX
- Can be running on dedicated hardware
 - Hardware designed specially for the IP-PBX
- Can be running on standard PC hardware
 - For example based on Windows or Linux

Entrysize iPECS IP-PBX MFIM50B

up to 50 Phones
4 x ISDN BRI (8 B-channels) for outside connection

Lots of facilities

- MOH – Music On Hold
- Trunking to other IP-PBX'es
- Expandable
- Security: IPSec, SRTP...
-

HOUSE OF TECHNOLOGY

erent SIP us
el iPECS ip p

BRI1 FXS1
BRI2 FXS2
BRI3 Audio I/O
BRI4 Alarm Relay

12V

Popular IP-PBX products

- Aastra
- Cisco Call Manager
- Cisco Call Manager Express
- Ericsson
- LG Ericsson iPecs
- FreePBX – Based on asterisk
- Vendor specific configuration and functionality

TELEPHONY SERVICES

HOUSE OF
TECHNOLOGY
● ○ ◎ ⊙ ○ ● ⊕ ● ⊙ ⊙
...an idea of mercontec®

Telephony services

- Voicemail
 - Record messages when busy or absent
- Call waiting
 - Beep when a call is received in a conversation
- Conference call
 - Three or more participants in a conference
- Call forwarding
 - Redirecting a call to another phone

Telephony services

- DND or Do not disturb
 - Telephone not ringing when receiving calls
 - Can be combined with call forwarding, when DND activated calls forwarded to other phone
- Call Park
 - Park one call to make another or respond to a call waiting signal
- MOH or Music on hold
 - Playing music for calls on hold

Telephony services

- Follow-me
 - The exchange is configured with a list of numbers for a person.
 - When a call is received for that person, the exchange routes it to each number on the list in turn until either the call is answered or the list is exhausted

Telephony services

- **CLIP - Calling Line Identification Presentation**
 - See the ID of incoming call in the display
 - Also called CID - Caller Identification
 - CID - Caller Identification
 - Calling Line Identification Presentation
- **CLIR – Calling Line Identification Rejection**
 - Hiding the identification of caller (anonymous)

Telephony services

- **CFU – Call Forwarding Unconditional**
 - A call to a specific number is unconditionally forwarded to another number
- **CFB – Call Forwarding Busy**
 - A call to a specific number is forwarded to another number only if the phone is busy
- **CFNR – Call Forwarding No Reply**
 - A call to a specific number is forwarded to another number if the phone is unanswered

Dial plan example

- M
plan

In Branch A all extensions are in the 2000 range. From 2000 to 2999

Assignment

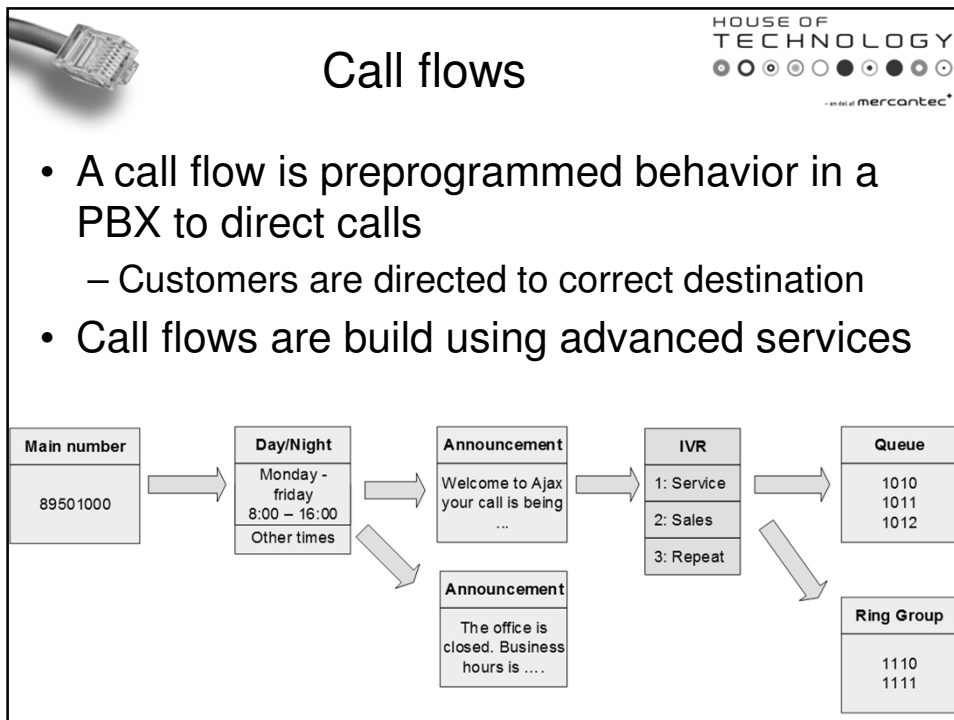

- Configure all Extensions with Voice Mail
 - User should receive an email on new VM
 - Voicemail activated after 10 seconds.
- Enable Call Waiting
- Create a Conference Number
 - New users need to get information about number of participants
 - Users need to know when new participants arrive and leave the conference

CALL FLOWS

Making things work

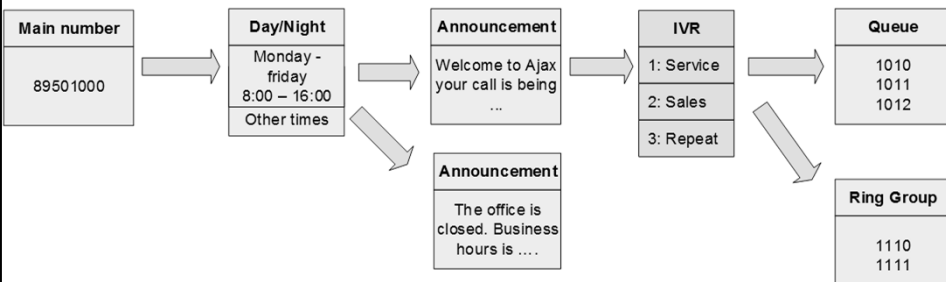

HOUSE OF TECHNOLOGY

Time conditions

- Time conditions can have different names and implementations on different platforms
 - Time plans
 - Time groups

Danish to English translation
 Tidsplan = Time plan
 Rediger = edit
 Ferie = Holiday
 Slet = delete

Tidsplan, Rediger

Rediger en eksisterende tidsplan.

OK Anvend Tilføj Annuller

* Tidsplansnavn: holiday

Type: Ferie

Slet	Hændelsesnavn
<input type="checkbox"/>	Christmas
<input type="checkbox"/>	Summer Vacation

Hændelsesnavn Begynder med

OK Anvend Tilføj Annuller

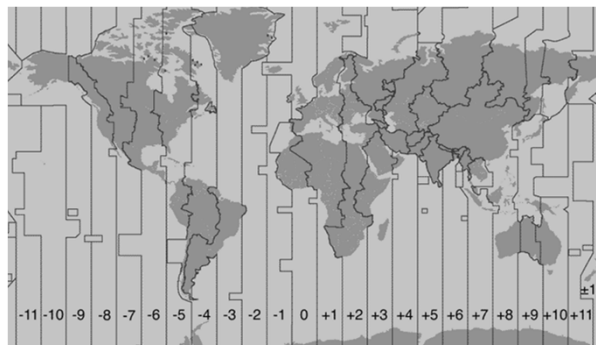

Time conditions

- A time condition is a time interval
- A time group is one or more time conditions
 - If the current time is within the one of the time conditions do one thing if not do other thing
 - Time condition 1 is
 - Monday to Thursday from 08:00 to 16:30
 - Time condition 2 is
 - Friday is 08:00 to 14:00
 - Time group “Office Hours” is
 - Time condition 1 and time condition 2

Time conditions

- In international companies with call centers a follow-the-sun model can be used
 - Instead of a three shift call center
 - Three or more call centers in different time zones

IVR

Interactive Voice Response

- Sometimes called an automated attendant
- Press “1” for sales “2” for bookkeeping ...
- Plays an announcement and receives DTMF tones from caller
- Routes call to other service depending on DTMF tone

Ring groups

- A ring group is a virtual extensions that rings a group a of extensions/phones
- If all phones busy there is no queue
 - Calls are rejected or sent back to for example IVR after announcement “All lines are busy”
- Different ring strategies
 - Dependent on implementation

Strategy	Action
Ringall	Ring all available phones until one answer
Hunt	Take turns ringing each phone
Share load	Start ringing the phone used least first

Ring groups

- Possible to enter and leave ring groups
 - Implementation specific
- Using feature codes or preprogrammed buttons on the phone
 - The feature codes shown below are an example

Feature code	Action
*301 + Group	Leave ring group with virtual extension Group
*300 + Group	Enter ring group with virtual extension Group
*301	Leave all groups this extension is a member off
*300	Enter all groups this extension is a member off

Ring queues or queues

- Advanced ring groups with a queue
 - “You are number 17 in the queue”
- Often very advanced with many features
 - Music on hold
 - Periodic announcement of queue length and/or expected waiting time
- Can be used as call centers

Call center

HOUSE OF TECHNOLOGY

...an idea of mercontec*

- A call center is an advanced Ring queue
- Desktop combined with phone
 - Find customer in database based on dialing telephone number

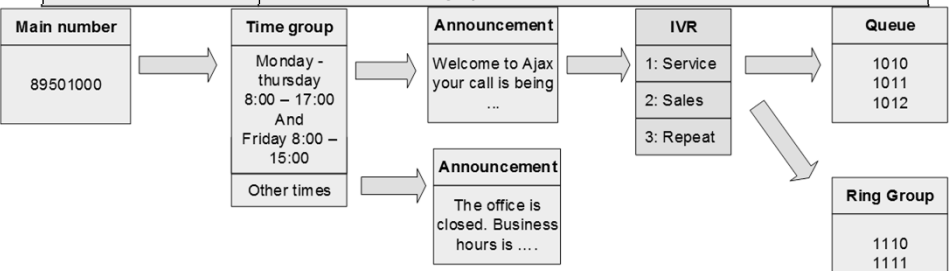

Advanced services

HOUSE OF TECHNOLOGY

...an idea of mercontec*

Service	Explanation
Announcement	voice recording
Time condition	Time/date interval
Time group	Action based on one or more time conditions
IVR	Interactive Voice Response. Action based on DTMF tones
Ring group	A virtual extension enabling a group of phones to ring
Ring queue	An advanced ring group with a queue
Call center	An advanced ring queue
